### Description

Smallmouth bass are among the top sports species that continue to elude anglers. Sometimes, you can throw anything at them and catch plenty throughout the day. Other times, you can't even get a sniff. That's where our Smallie Slam Pack comes in. These three bait styles and color combinations are proven over and over again. Whether in sunny or overcast conditions or whether fish are playing hard to get, these baits offer you the ability to use multiple techniques to entice the bite.

- **GOLIATH Goby** [Muddy Glow] is an incredibly realistic imitation of a round goby now found across the Great Lakes region and across North America. Bass as well as numerous other fish species have tuned into goby as a primary food source and has made our goby baits extremely popular. They catch fish! Ned jig or drop shot this bait.
- **TZR-WORM** [Lake Simcoe Goby Color] is our new midwest finesse style

worm bait that has become very popular when targetting walleye. This color combination, plus the bottom bouncing action entice bass to bite hard! Ned or drop shot rig them.

- [CRAWDADDIE](#) [Black Eye Pumpkin] is designed with two whiskers and a brand new EDGE-CLAW design that makes each claw move more realistically through the water. Like the real thing, the claws move inward with each jig movement to mimic the actual motions of a fleeing crayfish.
- Loaded with our signature [HAMMER JUICE](#)
- Loaded with hand-ground, **sea salt** so fish hang on longer
- GOLIATH Goby 6 pcs, TZR-WORM 8 pcs, CRAWDADDIE 6 pcs
